Washington, DC 20554

Reference: CC Docket No. 97-213 and File No. NSD-L-00-234

Dear Ms. Dortch:

Please find enclosed an original and two (2) copies of an amendment to the Cambridge Telephone, Co. (TRS #806475) and CTC Telecom, Inc. (TRS #820078) existing Section 107(c) petition(s) for an extension of CALEA capability requirements. The Company is a wireline carrier. This supplement is a request for an additional extension until June 30, 2004, of the existing 107(c) petition for extension of the compliance date for basic J-STD communications and the six additional assistance capabilities known as the punch list, as currently defined.

In its original petition, a compliance date waiver for the basic J-STD and the punch list was requested for both companies. Based on a central office switch replacement at CTC Telecom, Inc., that company no longer requires a waiver of the basic J-STD or punch list requirements. CTC Telecom, Inc., respectfully requests that the portion of the petition attributable to its operations be withdrawn. Further, Cambridge Telephone, Co., no longer requires a waiver of the basic J-Standard requirement based on the Company's current network capability. Cambridge Telephone, Co., continues to require a waiver with respect to the punch list.

The Company is participating in the FBI's Flexible Deployment program. In concert with the changes to our petition above, we further request that the Flexible Deployment Guide - Third Edition template filed by CTC Telecom, Inc. with the FBI, be withdrawn. We have included an updated Flexible Deployment Guide - Third Edition template for Cambridge Telephone, Co. reflecting the current state of its network.

File of Copies rec'd
